Annex to the identical letters dated 13 February 2009 from the Permanent Representative of Lebanon to the United Nations addressed to the Secretary-General and the President of the Security Council

Lebanon's position paper in preparation for the upcoming report of the Secretary-General on progress in the implementation of Security Council resolution 1701 (2006)

13 February 2009

In anticipation of the periodic review by the United Nations Secretary-General of the implementation of Security Council resolution 1701 (2006), Lebanon reiterates its commitment to the full implementation of resolution 1701 (2006), and calls on the international community to exert pressure on Israel to abide by its obligations under the said resolution and ensure that progress can be achieved.

- Since the last review, the Israeli Army has violated the Lebanese air, land and sea, 627, 49 and 81 times, respectively (see attached list by the Lebanese armed forces (LAF) on the period from 5 November 2008 to 1 February 2009). The number of these violations underlines the persistence by Israel to breach the Blue Line, the sovereignty of Lebanon and resolution 1701 (2006). While calling for their immediate cessation, Lebanon rejects and cannot accept any kind of link between these violations and the allegations on arms smuggling.

- The Israeli Government and high military officials have continued to threaten to bombard Lebanon, be it publicly or in the tripartite meetings in Naqoura, not sparing any civilian infrastructure or public institution, under the pretext of alleged arms stocking and transfer. These threats of aggression are not only a grave breach of the standing principles enshrined in the Charter of the United Nations, the spirit of resolution 1701 (2006), and Lebanese sovereignty, but also constitute a blatant violation of the responsibility of safeguarding international peace and security. Moreover, these threats are in contradiction with Israel's obligation to refrain from any unilateral act and to report any alleged transfer of arms or stockpiling to UNIFIL so that the necessary verification with LAF can proceed.

- LAF continues to enhance its operational and strategic cooperation with UNIFIL and remains committed to participate actively in the tripartite meetings. Despite all the mechanisms established by UNIFIL bilaterally and through the tripartite meetings, the Israeli army has continued to resort to unilateral actions along the Blue Line, notwithstanding that it has been agreed in the tripartite meetings, and reiterated many times, that any unusual action along the Blue Line area needs to be coordinated with UNIFIL in advance, and as a sign of goodwill, to avoid tension and unnecessary escalation at the border. It is important that such rules be respected by Israel.

- As to the marking of the Blue Line, Lebanon reiterates the agreement in the tripartite meeting to enhance this process and speed it up, knowing that the Israeli Army continued so far to put hurdles to the marking exercise, namely by linking the marking of a specific agreed point to others not agreed upon.

- Despite all the efforts which have been made by UNIFIL to facilitate the full withdrawal of Israel from the northern part of Ghajar, and the cooperation of the Lebanese Government with UNIFIL towards this objective, the Israeli Army continues to occupy this area in contravention to its obligation to withdraw unconditionally behind the Blue Line, in accordance with resolution 1701 (2006).

- The continued Israeli occupation of the Sheba'a Farms constitutes a threat to stability and security along the border and is a violation of Security Council resolution 425 (1978). While recalling the proposal of the Lebanese Government as contained in its seven-point plan, we urge the Secretary-General to intensify his diplomatic efforts to ensure Israeli withdrawal from this Lebanese territory.

- Israel still refuses to supply the United Nations with the full strike data of the cluster bombs it showered Lebanon with in 2006. This humanitarian crime adds to that which is still resulting in many victims of landmines which Israel has planted in Lebanon during its occupation, and to the many crimes Israel inflicted on Lebanon for which it will have to pay due reparation. Lebanon urges the United Nations to continue addressing this issue in order to secure the lives of innocent civilians.

- During the period under review, UNIFIL and LAF intensified their coordination and joint patrolling in the area of operation of UNIFIL, which resulted in concrete measures aiming at ensuring that no hostile activities take place within the UNIFIL area of operation.

- While condemning any Israeli unilateral action targeting Lebanese territory, under any pretext, the Lebanese Government reiterates its full respect to the strict implementation of resolution 1701 (2006) and that any hostile activity across the Blue Line, including rocket firing, is a blatant violation of this resolution. Any incident of this kind should be addressed by UNIFIL in coordination with both parties in a way that safeguards stability and security.

- It is to be noted that during the recent period which witnessed an Israeli aggression on the Gaza strip, LAF increased its presence in the south to make sure that stability reigns in this area and to prevent any repercussions involving Lebanon.

- Lebanon re-emphasizes the importance of enhanced international assistance in building up its army's capabilities, which will ensure its readiness to discharge tasks entrusted to it in defending the sovereignty of Lebanon and protecting the safety of its people.

- Concerning border control, the Common Border Force is continuing its work in the north and is under way to expand gradually to the eastern border as per the decision of the Council of Ministers.

- Lebanon is cooperating with UNIFIL in addressing issues of a particular civil nature which might have unwanted repercussions on the situation along the Blue Line. In this context, the Lebanese Government is in the process of constructing drains to evacuate the accumulated rainwater in the outskirts of the village of Kafarkela, a problem due to the fact that Israel had in the past, during its occupation of the area, diverted the natural course of the water.

- On the economic front, we reiterate the call upon the international community in resolution 1701 (2006) to consider further assistance for the reconstruction and development of Lebanon. In that context, we urge the States participating in the conferences of Stockholm, Paris III and Vienna to fulfil their pledges.

- It remains that stability and security cannot be sustained unless a permanent ceasefire replaces the precarious situation of the cessation of hostilities.

Agenda item 5
Illegal Israeli actions in Occupied East Jerusalem and the rest of the Occupied Palestinian Territory

Security Council
Sixty-fourth year

Identical letters dated 18 February 2009 from the Permanent Observer of Palestine to the United Nations addressed to the Secretary-General and the President of the Security Council

It is with grave concern that I must draw your attention to the continuation and intensification of Israel's illegal, massive colonial settlement campaign in the Occupied Palestinian Territory, including East Jerusalem. As we continue to grapple with the grave crisis caused in the Gaza Strip by the occupying Power's deadly and destructive military campaign and continuing blockade, which has caused immeasurable suffering and hardship for the Palestinian civilian population, we must also address its relentless attempts to illegally colonize the rest of the Occupied Palestinian Territory.

The occupying Power's settlement campaign is not only unlawful, constituting grave breaches of international law, violations of numerous United Nations Security Council and General Assembly resolutions, and total disrespect for obligations and commitments under the road map and other commitments made in the context of the Middle East peace process, including in the Annapolis Conference, but is also widely recognized as constituting a major obstruction to the goal of a peaceful settlement of the Israeli-Palestinian conflict on the basis of the two-State solution. Indeed, as Israel continues its illegal confiscation of Palestinian land, the construction and expansion of settlements, settlement "outposts" and settlement infrastructure, and the transfer of more Israeli settlers to the Occupied Palestinian Territory in order to advance its attempts to illegally de facto annex more Palestinian land, the territorial contiguity and integrity of the Territory is being severely undermined and the prospects for physically achieving the two-State solution are becoming ever more remote.

In this regard, I regret to inform you of the latest unlawful and provocative decision taken by Israeli authorities to confiscate 1,700 dunums of privately owned Palestinian land for the purpose of connecting illegal settlements in Al-Khalil (Hebron) with illegal settlements in the area of Occupied East Jerusalem. The orders

for this illegal confiscation came on the eve of an Israeli announcement regarding the plans to expand the "Efrat" settlement by 2,500 units, which would be built on this land, as a means of promoting this artificial continuity between the settlements. The confiscation of the land, which belongs to Palestinians from the villages of Khader, Beit Fajar, Irtas, Um Salamonah, Idrahal and the city of Bethlehem, which is located just west of the "Efrat" settlement, would effectively complete Israel's attempts to sever the West Bank into two separate, disconnected parts.

This is an alarming, condemnable development that the Palestinian leadership views as a direct threat to the consensus goal of the Middle East peace process of establishing a contiguous, viable, independent Palestinian State as the only way to forge a just and lasting peace in the region. Israel's illegal policies and actions in this regard, which aim at the acquisition of more Palestinian territory by force and at consolidating that acquisition with the transfer of even more Israeli settlers to this land, are completely and blatantly contradictory to this goal and are seriously prejudicing the situation on the ground and undermining any efforts to resolve such a core, final status issue in the context of the peace process.

Such flagrant breaches of the law by the occupying Power and the violation of its own pledges to freeze all settlement activities and dismantle settlement "outposts" must be condemned and demands must be made upon Israel to cease all such illegal activities. Appeasement of such illegal policies and actions must no longer be tolerated; this will only serve to advance Israel's attempts to physically alter the situation on the ground with such unlawful facts. Moreover, demands must be made upon Israel to not only "talk" about peace but to actually "act" for peace, which would necessitate more than empty promises and rhetoric about dealing with the settlements issue. In this regard, it is highly regrettable that over the past 15 years since the launch of the Israeli-Palestinian peace process, successive Israeli governments have claimed commitment to seeking peace with Palestinians, while at the same time the illegal actions undertaken by these successive governments have proven the exact opposite. This latest Israeli announcement comes as further proof of the mal-intent of the occupying Power in this regard.

The international community has a legal and moral obligation to take an unwavering stand towards such belligerent, destructive and unlawful Israeli policies and practices and act to bring an end to these policies and practices. Serious measures must be taken to guarantee that no State consider itself above international law and the principle of accountability. since the Annapolis Conference in November 2007, Israel has increased its illegal settlement activities and land confiscations in the West Bank, including East Jerusalem, seventeen-fold, or by some estimates by 69 per cent. This staggering fact, coupled with the continued construction of the Wall, the continued imposition of hundreds of checkpoints restricting Palestinian movement and socio-economic activity and the continued inhumane siege on Gaza, exposes as empty all Israeli declarations regarding its commitment to obligations, pledges and commitments made in the course of the peace process, including under the road map.

In this regard, the Palestinian side, by all accounts, has clearly fulfilled its obligations under the road map with transparency and diligence, despite all of the Israeli-imposed obstacles. Contrary to Israel's false pretences, our commitment to undertaking what is necessary to achieve the historic, painful compromise that must be made with Israel for the sake of peace is undeniable, proven by facts and acts on

the ground. Consequently, we reaffirm the position declared by Palestinian President Mahmoud Abbas that any negotiations with Israel under these conditions would be futile and only result in further frustration. More dangerously, it would waste time in pretences of peace while Israel continues erecting facts on the ground that makes this very peace we seek a physical improbability.

The intention and clear goal of the negotiations is to achieve peace by ending the Israeli military occupation of Palestinian Territory that began in 1967 and establishing the independent State of Palestine to live side by side with Israel in peace and security. The current Israeli modus operandi unfortunately only proves that Israel wants to maintain a façade of peace negotiations while making the end goal of these negotiations impossible to achieve. We thus call on the international community, in particular, the relevant United Nations bodies, to address this critical issue and to reaffirm the principles and legal and moral stance that would protect the prospects of peace and prevent extremist agendas from winning over commitment to peace.

The present letter is in follow-up to our previous 333 letters to you regarding the ongoing crisis in the Occupied Palestinian Territory, including East Jerusalem, since 28 September 2000. These letters, dated from 29 September 2000 (A/55/432-S/2000/921) to 2 February 2009 (A/ES-10/445-S/2009/65), constitute a basic record of the crimes being committed by Israel, the occupying Power, against the Palestinian people since September 2000. For all of these war crimes, State terrorism and systematic human rights violations committed against the Palestinian people, Israel, the occupying Power, must be held accountable and the perpetrators must be brought to justice (as all the victims have not yet been identified, their names will be included in an annex to a future letter).

I should be grateful if you would arrange to have the text of the present letter distributed as a document of the tenth emergency special session of the General Assembly, under agenda item 5, and of the Security Council.
